

# BOWIQ

beyond acoustics

**Product group:** BoSpray

## **Description**

BoSpray is a seamless highly acoustical sprayplaster based on recycled cellulose that can be applied in high layer thicknesses in a single layer.

## **Key features**

- Excellent acoustical properties
- Water-based
- Quick application, very high layer thickness, reach: 5 - 25mm in a single process
- Colors: range of colors available
- Light weight
- Gloss: matt

## **Applications**

Both new constructions and renovations, as long as the acoustic experience plays an important role.

For instance: Community spaces, classrooms, restaurants, sports, auditoriums, car parks, offices, swimming pools, etc.

## **Fire-resistant class**

Classification: B1 according to DIN 4102

## **Acoustics**

NRC of 0.65 at 25 mm. For different values please contact us.

## **Substrate conditions**

- Substrate needs to be clean, dry and free of dust;
- Remove loose parts;
- Completely close holes and cracks in substrate;
- Unevenness >3mm must be smoothed;
- Aluminum or plastic profiles need to be placed to end the spray work when it is not possible to end against a wall or window frame.
